Glasmontage

Het is mogelijk om accessoires met het glas montage icoon G uit de Nemox serie op glas te monteren. In situaties waar de douchewand meteen een scheidingswand is met het toilet kan dit een oplossing bieden. Het gaan hangen of zich optrekken aan een accessoire, dat op een glazen douchewand is gemonteerd, raden we ten zeerste af.

De accessoires zonder icoon zijn uitgesloten van glasmontage. Voor meer informatie zie hoofdstuk 'mounting' achterin deze catalogus.

Glass mounting

Nemox accessories with the glass mounting icon G can be mounted on glass. In situations where the shower wall is also a partition wall with the toilet, this can offer a solution. We strongly advise against hanging or pulling on an accessory, mounted on a glass shower wall.

The accessories without icon are excluded from glass mounting. For more information see chpater 'mounting' in the back of this catalogue

Glasmontage

Het is mogelijk om accessoires met het glas montage icoon uit de Tone serie op glas te monteren. In situaties waar de douchewand meteen een scheidingswand is met het toilet kan dit een oplossing bieden. Het gaan hangen of zich optrekken aan een accessoire, dat op een glazen douchewand is gemonteerd, raden we ten zeerste af.

De accessoires zonder icoon zijn uitgesloten van glasmontage. Voor meer informatie zie hoofdstuk 'mounting' achterin deze catalogus.

Glass mounting

Tone accessories with the glass mounting icon can be mounted on glass. In situations where the shower wall is also a partition wall with the toilet, this can offer a solution. We strongly advise against hanging or pulling on an accessory, mounted on a glass shower wall.

The accessories without icon are excluded from glass mounting. For more information see chpater 'mounting' in the back of this catalogue

Mounting

Montagehoogten / Mounting heights

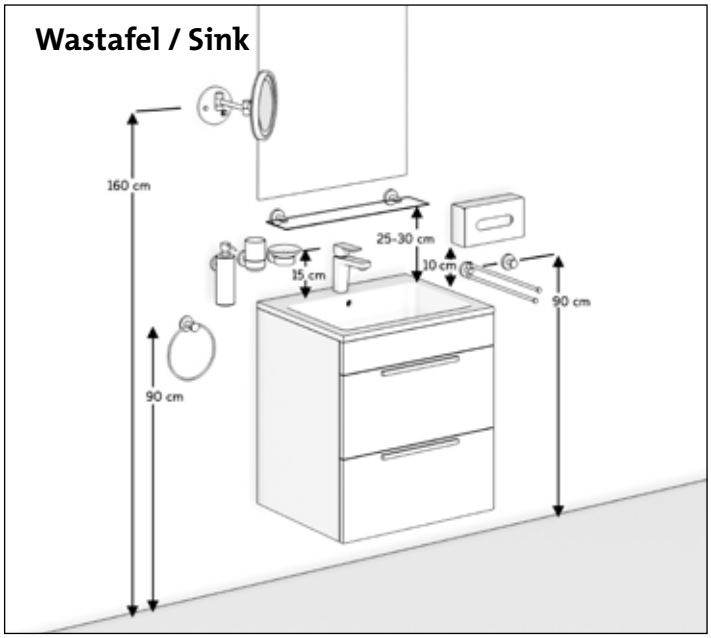

Onze accessoires zijn ontworpen om een leven lang mee te gaan. Ze vormen de perfecte balans tussen kwaliteit, functionaliteit en design. Om optimaal te kunnen genieten van onze producten, geven wij een montagehoogte advies.
Bij de aangegeven maten en hoogtes is uitgegaan van de gemiddelde lengte van een volwassen persoon. Uiteraard zijn dit slechts richtlijnen en is het allerbelangrijkst dat u voor uw eigen situatie steeds de meest comfortabele hoogte kiest.

Our accessories are designed to last a lifetime. They form the perfect balance between quality, functionality and design. In order to optimally enjoy our products, we provide a mounting height advice.
For the indicated sizes and heights, the average length of an adult person is assumed. Of course these are only guidelines and the most important thing is that you always choose the most comfortable level for your own situation.

Glasmontage

Het is mogelijk om accessoires met het glas montage icoon G uit de Nemox, Nemox stainless steel, Nemox black en Tone series op glas te monteren. In situaties waar de douchewand meteen een scheidingswand is met het toilet kan dit een oplossing bieden.

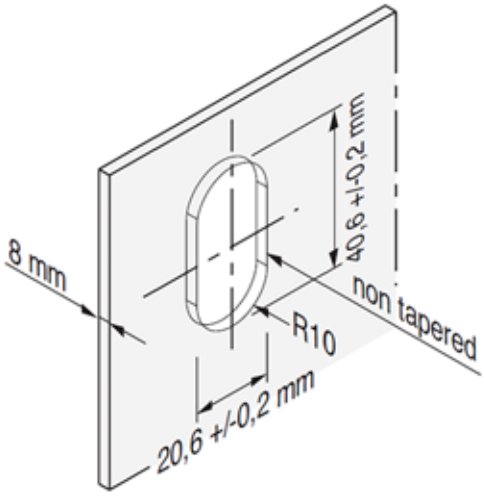

Het gaan hangen of zich optrekken aan een accessoire, dat op een glazen douchewand is gemonteerd, raden we ten zeerste af. De Nemox grepen: 916506-02; 916574-02; 916528-02, de Nemox stainless steel greep: 916506-05, de Nemox black greep: 916506-06 en de Naxos greep: 916206-02 zijn daarom uitgesloten van glasmontage.

Glass mounting

Nemox, Nemox stainless steel, Nemox black and Tone accessories with the glass mounting icon G can be mounted on glass. In situations where the shower wall is also a partition wall with the toilet, this can offer a solution.

We strongly advise against hanging or pulling on an accessory, mounted on a glass shower wall. The Nemox grab rails: 916506-02; 916574-02; 916528-02, Nemox stainless steel grab rail: 916506-05, Nemox black grab rail: 916506-06 and the Naxos grab rail: 916206-02 are therefore excluded from glass mounting.

Information

Design since 1885

Ben van der Steen
Managing Director

It is always about details, which improve the whole, and make the difference, and this also applies to bathrooms. Carefully designed and produced accessories colour their surroundings, and we work on this every single day!

Geesa was established in 1885 and has since developed into a market leader in the Netherlands in the professional segment and is authoritative in the export to another 65 countries.
We have reached this position by consequently focusing on quality. Our accessories are designed to last a lifetime, and they provide the perfect balance between quality, functionality and high-end design.

Unless indicated otherwise, all our accessories are produced with top-quality brass (CU ZN 38 Pb 1.5) and/or stainless steel, and are thus absolutely rust-resistant. After the careful grinding and polishing of the brass parts, they are coated with a heavy nickel and chromium layer with a total thickness of 12 micron. This is just one reason why we can provide the construction and chromium with a 12-year warranty. A 5-year warranty applies to stainless steel and brushed chromium.

Refer to our Sales Manual and website (www.geesa.com) for other warranty periods.

Our entire selection is developed in Amersfoort. Geesa is ISO 9001-2015 certified for product development, production and delivery of bathroom accessories.
Design is among the main guidelines in everything we do and is inextricably bound up with optimal functionality.
Our mission is to take up and uphold a leading position in the international market.
We have ensured loyal and excellent partners all over the world. Feel free to contact us as we are happy to provide any advice and solve any bathroom challenge.

This is why Geesa has been supporting the Ronald McDonald Children's Fund for years. For 30 years the Ronald McDonald Children's Fund has ensured that parents can be close to their sick children by staying in a Ronald McDonald Huis: a guest house near the hospital where their children are undergoing treatment so that they are just minutes away from their child. We have provided almost every Ronald McDonald House with Geesa accessories.

Special Products
We like to think along with designer, architect and installer. It is the challenge and at the same time our passion to strengthen the atmosphere that the designer wants to realize. The variety of designs within our range makes it possible to create various styles. In addition, a part of our collection can be executed in any desired color. For example, the corporate identity colors of the hotel or a color matching the chosen interior style. From the point of view of functionality or the available space, there may also be specific wishes. This can be an adaptation to an existing product to a certain size or the development of a totally new product.

These kinds of special products can be requested from our sales team. Depending on the demand and the size of the project, we will jointly look for a solution and give substance to its implementation.

Onderhouds tips
U kunt onze producten het beste reinigen met een zachte, vochtige doek en een normale huishoudreiniger. Gebruik geen agressieve reinigingsmiddelen. Roestvast staal kunt u het beste reinigen met een zogenaamde microvezel doek met glasreiniger of een speciaal reinigingsmiddel voor roestvast staal. Geen producten met chloor- of zoutzuuroplossingen gebruiken. Plastic onderdelen reinigen met regulier schoonmaakmiddel.

Maintenance tips
The best way to clean our products is with a soft, damp cloth. Do not use abrasive or aggressive cleaners. It is best to clean the stainless steel cover with a so-called microfibre cloth with a glass cleaner or a special stainless steel cleaner. Do not use products which contain chlorine or hydrochloric acid solutions. Clean plastic parts with normal household cleaner.

Pflegetips
Der Artikel können Sie am besten mit einem feuchten Tuch und mit einem normalen Allesreiniger reinigen. Verwenden Sie keine scheuernde oder aggressive Reinigungsmittel. Die Abdeckung aus Edelstahl ist am besten mit einem sogenannten Mikrofasertuch und einem Glasreiniger oder mit einem speziellen Reinigungsmittel für Edelstahl zu reinigen. Verwenden Sie bittekeine Chlor- oder Essigreiniger. Die Teile aus Kunststoff mit normalem Haushaltreiniger reinigen.
